

Buying a membership if you don't belong to a club

If you don't belong to a netball club, perhaps you coach or officiate and operate independently, you can join directly through your County Netball Association, as follows:

1. Select your County Netball Association from the list [here](#). This will redirect you to the ENgage login page for that particular county.
2. If you've previously been a member of England Netball, please enter your membership number into the ENA ID field. (Please contact membership@englandnetball.co.uk if you're unsure what this is.) If you haven't been a member before, please see point 4 below.
3. To set a password, click **Forgot Password**. This will send you a link to your registered email address. This will come from noreply@first-sports.com and it may go to your junk mail - so please look out for this. Once logged in, select **Buy Membership at {county}** in **Actions** and follow the purchase process.
4. If you're completely new to England Netball, after selecting the relevant county link, you'll need to select **Create Account** (located under the login fields). Once you've successfully registered your details, you'll receive login information by email. Simply log in and follow the same process outlined above to buy your membership.
